Why Horizon Homes?

We build homes to live your dreams

We know that buying a new home is among the most important decisions you will ever make. Home is where memories are created and life is celebrated. The company who builds your home is the cornerstone of this legacy. From one year to the next, our experience, leadership and dedication to each and every buyer remains unmatched.

Your Happiness is our goal

We strive to make our customers smile all the way home. Outstanding customer service is the touchstone of our success. As stated by a recent client, *“The project was managed well and flowed so smoothly. We had a stress-free experience in a potentially stressful situation. Horizon made the overwhelming choices easy and approachable”*. ■

Quality

Horizon Homes truly delivers on its promise of quality. We have developed long-standing relationships with trusted suppliers and subcontractors that stand behind their work. We use the highest grades of materials, and name-brand fixtures and components. Most importantly, we offer a warranty that gives every homebuyer years of confidence and protection. At **Horizon Homes**, we do all this and more so you can feel the quality that goes into your home the moment you step inside.

What is it about a brand new home that's so exciting?

Maybe it's being the first to cook in the gourmet kitchen, or soak in the luxurious spa tub. It could be the pleasure of running your toes over plush, new carpeting or choosing all of the colours and finishes yourself. Or maybe it's that wonderful new home smell. But, most of all, it's about having a home that's 100 percent YOU! **Horizon Homes** takes pride in creating homes that are as beautiful to look at as they are comfortable to live in. Backed by years of experience, Horizon owners can rest assured that their new home will be a source of pride and satisfaction for many years to come.

Onsite management makes the difference

At **Horizon Homes Ltd**, we are the craftsman. We are on site daily taking part in the building of our customers dreams. From the turning of the first shovel of dirt to the handing over of the keys, a **Horizon Homes Ltd**. owner will be there. ■

Design

What's important to you is important to us. At **Horizon Homes**, we're listening to you! Whether it's a home office, a three-car garage, chef's kitchen, or ensuite spa, these are the things that transform a house into a home. A Horizon home is a true reflection of your tastes and lifestyle.

Home buying Resources: Design your Home

As a new **Horizon Homes** buyer, you will have a unique opportunity to personalize your new residence right from the start. Working with the designers at **Robinson Architecture** you can customize your home to your family's lifestyle. You can choose from an array of materials, finishes, colours and textures that reflect your lifestyle and individual style! From the basics like flooring, cabinets, and

countertop selections, to necessities such as window coverings and security systems, all the way to luxury refinements including media rooms, dramatic built-ins or professional grade appliances and more are available to you. The best part is, your selections and any upgrades you choose will be complete and ready for you to enjoy the day you move in and oftentimes, these items can be financed along with your new home.

All of our homes are covered by Saskatchewan New Home Warranty Program.

Towards a Greener World

Horizon Homes is committed to building a greener world. We build with the latest materials and techniques. Energy efficiency comes standard in every Horizon Home. ■

Who is Horizon Homes Ltd?

Experience Makes the Difference

Horizon Homes prides themselves in the commitment to their clients that the owners are still the ones who build the homes. Not hidden away in a corporate office, you can find the owners on site making sure your dreams are realized. From pouring the concrete to handing over the keys, a Horizon Homes Ltd. owner will be there.

Norm Hales brings a wealth of construction and business experience to the company. He holds a Bachelors Degree in Administration and has over 35 years of home building experience. Having built and lived in his first home at 19 years of age, Norm has the knowledge that comes from years of hands on experience.

Dustin Duzan is the onsite foreman and has the eye for detail that is instrumental in the quality that goes into a Horizon Home. Dustin's home building experience also started with his own home. From the footings to the shingles, he assembled his first home for his own family. He knows what it takes to make a dream turn into a home, not just a house.

Jae Unser draws his experience and knowledge from years of home building in the family business located in Saskatoon.

Trevor Marshal is a Red Seal Journeyman Carpenter and has worked exclusively in residential home building.

Brock Chelsberg is Horizon's on site concrete specialist but his expertise is not limited to just that facet of construction.

Brad Duzan brings over 30 years of high quality painting experience to the mix. Horizon's finished product is left in Brad's hands and the result is always second to none.

We have the experience needed to ensure that everything comes together in the right way, so you can begin making a lifetime of memories in your new home. ■

Welcome to “the village”, the new and unique residential neighbourhood of West Park Village. A great addition to the historical and burgeoning charm of the City of Moose Jaw, West Park Village is designed within an “Urban Village” model which stretches lifestyle opportunities to its limits by creating a real place that looks forward in value, function, and sustainability rather than simply subdividing lots.

An urban village has a village centre, village square, village centre “street front” convenience commercial, a grand boulevard celebrating the neighbourhood and leading to the village square, a variety of housing forms carefully integrated and architecturally reviewed to ensure a vibrant residential community with strong and sustained value.
